SerureCRT 8.3 installation on Ubuntu 16.04LTS Linux

November 21, 2017 · 50 comments

This tutorial uses SerureCRT 8.3 - Nov 9, 2017 release running on Ubuntu 16.04LTS machine, follow the steps below and enjoy fully featured rock-solid terminal emulation:

- Download the latest SecureCRT for Linux Ubuntu 16.x 64-bit (s crt-8.3.0-1514.ubuntu16-64.x86_64.deb) from official [Website](#)
- Double click the downloaded .deb file, and install it through Ubuntu Software Center for ease.
- Open a terminal (Ctrl+Alt+t) and download the perl script:
`rana@Ubuntu16:~$ wget http://download.boll.me/securecrt_linux_crack.pl`
- Check out the SecureCRT installation path:
`rana@Ubuntu16:~$ whereis SecureCRT`
SecureCRT: /usr/bin/SecureCRT
- Run the perl script on SecureCRT's installation path '/usr/bin/SecureCRT':
`rana@Ubuntu16:~$ sudo perl securecrt_linux_crack.pl /usr/bin/SecureCRT`
If the script is successful, the registration information output will be generated in terminal.
- Now, run 'SecureCRT' command in terminal and follow the prompts to fill out the registration information output in 'Enter License Manually' Tab.
- All Done!

(Script share is just for the sake of testing/educational purposes and do not endorse cracking, use in production or intend to violate any copyrights. Please, properly give credits to the developers; download trial and buy the most awesome SecureCRT - Peace!)

HTH,
Rana Tauqeer.

I'm glad it helped mate!

[Reply](#)

RisingForce July 17, 2018 at 2:47 PM

Is it possible to have the same for scrt version 8.5

[Reply](#)

▼ [Replies](#)

Rana Tauqeer August 8, 2018 at 11:58 AM

Yeah, if you patch successfully than; even though the license generated from patch is from the past, but registration info is still valid for the current versions (at the the time of writing this reply 'v8.3.4-1699' & all previous versions).

Luca September 3, 2018 at 2:08 PM

Nope :(just tried on Fedora qit version 8.5.0 but it says that the registration info are for version prior of 8.5.0 :(

Rana Tauqeer September 3, 2018 at 10:31 PM

Luca you're right and by the way, I'm working on the crack for scrt v8.5.0 and will be updating soon..!

Luca September 4, 2018 at 12:59 PM

Great!!!! Thank You very much!!!!

RisingForce September 23, 2018 at 5:01 PM

Rana, is there any update for scrt 8.5.0?

Rana Tauqeer September 24, 2018 at 6:53 PM

For scrt-8.5.0-1740, trick is to apply the patch with same perl script and than using the following registration information rather than the info generated in terminal to get it registered:

Name: ygeR

Company: TEAM ZWT

Serial Number: 03-67-217470

Issue Date: 08-25-2018

Key: ACYK2P JAR3W7 14JDJN H6U1NJ AADC3T 4P7DUB Y1CJ34 GK2YVD

HTH.

Luca September 24, 2018 at 7:22 PM

YEAH!!! It works!!!

Is it possible a licence for SecureFX? I have a similar script for is but I haven't a valid license :(

Rana Tauqeer September 24, 2018 at 11:49 PM

Got nothing for SecureFX, also, share your script here and let's see if we get any solution to that!

Luca September 25, 2018 at 2:24 PM

I have the following script (similar to the perl one found o this post):

```
cat SecureFX | od -A n -v -t x1 |tr -d '\n' > SecureFXHEX.txt
mv SecureFX SecureFX_backup_8.3.4
sed
's/c847abca184a6c5dfa47dc8efcd700019dc9df3743c640f50be307334fea/e02954a71cca592c855c91ecd4170001d6c606d38319cbb0deabebb05126/g'
SecureFXHEX.txt
cat SecureFXHEX.txt | xxd -r -p > SecureFX
```

After this patch I can use the following reg info but works only with version 8.3.4 (NOT WITH 8.5):

Name: ygeR
Company: TEAM ZWT
Serial Number:06-70-001589
License Key: ACUYJV Q1V2QU 1YWRCN NBYCYK ABU767 D4PQHA S1C4NQ GVZDQF
Issue Date: 03-10-2017

Hope this can help you.

Rana Tauqeer September 25, 2018 at 11:23 PM

Luca, The following license should work for sfx-8.5.0-1740!

Name: ygeR
Company: TEAM ZWT
Serial Number: 06-70-001060
Issue Date: 08-25-2018
Key: ADRF8N GE55NU TH3F5S JRT1Q9 AAXC44 QR3BCX G2FSDZ ZSS4BP

HTH.

Luca September 26, 2018 at 11:01 AM

YES!!!! You are my hero :D

Thank You very much!!!!

Rana Tauqeer September 26, 2018 at 12:53 PM

Glad that beauty is a redneck, and beast loves a redneck!
;)

Hi Rana

I can't active in version 8.5.2-1799, because I can't find the older version. Can you genarate a key to help me !

Rana Tauqeer December 18, 2018 at 10:44 AM

Hi Quốc Qou,

1- You can find all previous versions of all products by Vandyke at the following link:
<https://www.vandyke.com/download/prevreleases.html>

2- For scrt-8.5.2-1799, trick is to apply the patch with same perl script and than using the following registration information rather than the info generated in terminal to get it registered:

Name: ygeR
Company: TEAM ZWT
Serial Number: 03-67-217470
Issue Date: 08-25-2018
Key: ACYK2P JAR3W7 14JDJN H6U1NJ AADC3T 4P7DUB Y1CJ34 GK2YVD

HTH.

Cyrilleblunt March 26, 2019 at 1:16 PM

Hi Rana, Ozturk

Please which registration information can I use for the version 8.5.3-1867 ?

Rana Tauqeer March 26, 2019 at 3:32 PM

1)Apply the Patch
2)Use the following info to register
Name: ygeR
Company: TEAM ZWT
Serial Number: 03-67-217470
Issue Date: 08-25-2018
Key: ACYK2P JAR3W7 14JDJN H6U1NJ AADC3T 4P7DUB Y1CJ34 GK2YV

Hope this helps!

Cyrilleblunt April 1, 2019 at 4:53 AM

Hi Rana,
It works! I think your key is incomplete. There's 'D' at the end :)
I also used the patch of Luca for securefx and the corresponding register info you gave to him. All are working correctly!

Thnak you Rana and Luca.

Rana Tauqeer April 1, 2019 at 10:48 AM

Glad it helped, and thanks for pointing out the typo error in Key - "ACYK2P JAR3W7 14JDJN H6U1NJ AADC3T 4P7DUB Y1CJ34 GK2YVD"

Hi,

Just tested SCRT 8.5.4 on Ubuntu 18.04 LTS, try the following:

Name: xiaobo_l

Company: www.boll.me

Serial Number: 03-91-324785

License Key: AC33SN 4JHKFS 48KYUT MY8F24 AAKC1C HJYFXT 8P6S99 MRAUQ2

Issue Date: 02-12-2019

Unknown November 15, 2019 at 8:42 AM

Hi Rana

This key and license do not work on SecureCRT ver 8.5.4 on Ubuntu 18.04, i war trying but it do not valid license. Are you have any another license Rana ?? . Pls send to me if you can. Thank you very much !

Unknown November 9, 2019 at 7:42 PM

When I ran `securecrtr_linux_crack.pl` on ArchLinux using `sudo` it does return an error error at `securecrtr_linux_crack.pl` line 90.

I tested on SecureCRT 8.5.4

[Reply](#)

Fconffesor November 27, 2019 at 2:21 AM

Tested on OS: Ubuntu 18.04.3 LTS x86_64, Version 8.5.4 (build 1942) - Official Release - mayo 30, 2019, both Secure CRT and FX.

Works Perfect!!Thanks Rana and Luca.

techlabs.technology December 26, 2019 at 5:37 AM

Does this work on ARCH Linux (Manjaro) for both, secureFX & secureCRT

[Reply](#)

renren January 16, 2020 at 6:09 AM

cant download the perl script
`wget http://download.boll.me/securecrtr_linux_crack.pl`

[Reply](#)

Luca April 28, 2020 at 8:47 PM

hi all!

script works also on securecrtr 8.7.1 but you need to generate registration info with windows keygen. unfortunately it does not work with securefx. no registration info works but script modify correctly the binary. any ideas?
